

BBB OnLine Accreditation

Although Hank's has been a member of the Better Business Bureau (BBB) since 1996. We've only recently (July 2008) added the certified BBB online accreditation verification program to our newly designed website. This program verifies and assures customers that Hank's Service and business practices are professional, trustworthy, reputable, insured, and with a long outstanding service record in central Texas. We're proud to offer you our BBB report on every page of our website and encourage you to learn honestly why Hank's can serve your HVAC and appliance sales or repair needs.

Click the BBB icon on any web page footer to view our online accredited BBB report serving the Austin and surrounding communities.
